

Session Type: Animal/Plant/Cellular/Object Life

Definition

The client experiences a life as something like an animal, plant, cell or small organism or even an inanimate object

How can you tell?

These sessions can be tricky to figure out! The basic idea is to not make assumptions that your client is experiencing a “human life” until you know for sure that they are. Remain open. Your client may look down at their feet and describe them as “hairy.” Rather than assume they are humans with hairy feet you could simply ask them how many feet they see.

Basic Exploration

Initially you might simply be working out what kind of experience or life they are having. This can take a while! Be patient. Once you have identified WHAT they are... the questions can flow more easily and you look for the story as usual.

Suggested Questions

Where are you? (Set the Scene...big picture first)

What is happening?

What is your INTERNAL landscape? How are you feeling?

What is the story? Let's find out.

More Specific Questions for Non-human lives

Describe your form if possible.

Can you move?

Can you change your environment?

Can you communicate with others like you or other beings or ?

How did you get here?

What is your purpose?

How does your existence end?

What learning/skill/understanding can you bring back to your human client?

Here is an actual session example of an Animal session:

Where are you? *I am not sure.*

Can you describe your surroundings? *No. I can't see anything.*

Can you give me some impressions? *I am not sure I feel prickly...prickly sensations.*

Prickly? Can you describe that further? *Just prickly all over my body. Little pins...OH I am actually COLD.*

Can you move? *Let me see. Yes, yes I can.*

How do you move? *I'm sort of, oh... I am in water. I am moving like I am in water. OH! I am a fish.*

I am a fish in cold water. It's so deep, there is no light, but I know I can move. I am big. Oh I am so big!

And the session went on from there.

Here is an actual session example of a Plant session:

Where are you? *I don't know I don't see anything it's just dark.*

Okay, so can you give me some impressions? *Well, I am not sure.*

Just tell me if you are feeling anything. *I do feel, sort of damp actually... and closed in.*

Hmmm, damp and closed in. Anything else? *Well I can't move, not really. But I seem to be...hmmmm something. I am, wait, I am growing? I am growing up... pushing the space above me.*

What do you mean pushing? *I am just sort of moving and pushing and growing upward. Now I know what is happening. I am, I was a seed. I am now growing up, growing up out of the dirt into the light.*

And the session went on from there.

Here is an actual session example of an Object session.

Where are you? *I am in an auditorium.*

An auditorium? What is happening there? *I know exactly where I am. This is the auditorium where I graduated college. It is my college graduation.*

Okay. Tell me some more. *Well its very odd. I know where I am, I know what this scene is but I am way up in the corner looking down on it all.*

Okay. You are way up in the corner. How do you perceive yourself there? *It's so strange. I am just sort of here... sort of stuck or something. I feel hard. I feel...sort of like a box.*

A box? *Yes, a box. And I hear noise coming from me. Oh my gosh. I AM a box. I am a speaker... a loudspeaker? I am the loudspeaker in the auditorium!*

And the session went on from there in an unforgettable way. This client will be a VOICE in her industry. (She already is!) 😊
