

BQH Basic Term and Definitions

BQH - Beyond Quantum Healing, a flexible, highly adaptable, “Service to Others” concept/framework/modality. Its foundation is based upon the classic past life regression model. BQH focuses on intention and consciousness expansion and has no rigid scripts or rules.

Ascension – Ascension, in its basic spiritual or mystical sense, can be thought of as the highest state of Man (humanity). It is the expansion of awareness. It involves the realization of being ONE with the Creator and all of creation.

Beta/Alpha/Theta/Gamma/Delta Brainwaves

- Beta state (alertness, active thinking, and concentration).
- Alpha state (light hypnosis).
- Theta state (day dreaming, deep hypnosis, and light sleep).
- Gamma (deep meditative focus).
- Delta state (deep sleep).

Blocks - Impediment to energy flow. This is an often-used term for a number of things that get in the way or stop expansion of consciousness. It might be a belief system, it might be a story, a trauma or any number of things, depending on whom you ask.

Consciousness - A state of being and awareness involving anything that has energy or form and can be focused narrowly or universally depending upon perspective.

Control Agendas - When a being or group of beings attempt to dictate the behavior and thinking of another. Examples may be religious, educational or government institutions.

Cosmic Family - Primary connection of aspects/soul experience on other worlds or planets. A client might have a primary cosmic family originating from Orion, for example.

Counting out - Bringing a client back to every-day consciousness by using a progressive number sequence.

Deepener - Processes used to assist client in achieving a deeper consciousness state. There are number sequence deepeners, poetic deepeners and other deepeners that focus on feeling states of the body.

Disease - The basic word, when simply separated into two words illustrates that disease can be thought about as an imbalance of “ease” or emotions. “dis-ease”.

Download - Term used by metaphysically minded people to describe information that comes in from other realms or higher states of consciousness sometimes in large packets to be decoded at a later time.

Energy - Fundamental animating quality of all life.

Entity - Singularly focused being or energy form.

Frequency and Frequency Management - Also known as and sometimes described in terms of “vibration,” the energetic patterns on a scale from very low to very high. Very low frequency energy is heavy and slow. Very high frequency is light and fast. Thoughts and emotions and actions can and will determine frequency. If a person focuses upon the mainstream news for example, it is likely to affect their frequency and bring it down as mainstream news tends to focus on negativity and fear.

Frequency Management - How one deals with frequency in everyday life. Watching some kittens play with a toy rather than watching that mainstream news is a way to choose an activity that will likely create a higher frequency state.

Guide/Spirit Guide - These are spirits that have expertise, knowledge or experience in handling the situations you are planning for yourself to encounter while incarnated. Guides may be primary or main guides that may come and go or be replaced throughout one’s lifetime.

Healer - Any person who assists another in *healing themselves*.

Higher Self/SC - Accepted metaphysical term for a higher aspect of Your Higher Self is, in simple terms, the highest aspect of you that can be attained and held in the physical body. It is the part of you that knows, sees, and understands at the highest level possible.

Holding Space - Term often used in conjunction with frequency. A practitioner with a higher frequency can assist others when remaining neutral, in balance and when exhibiting relatively high frequency. If I, as a practitioner, sit with you and help you feel safe while you cry quietly, then I am holding space for you.

Hypnosis - General term usually referring to the Alpha or Theta brainwave state.

Hypnosis/Guided Vision/Journey/Daydream - Various terms used to suggest moving to a space of non-ordinary reality.

Induction - The technique of using a spoken script in hypnotizing a person or bringing them into a relaxed state.

Keyword - Word or phrase used to assist someone in returning to a deep hypnotic state.

Leading a client - Questions or comments that can tend to influence a client's experience. An example of a leading question is: Aren't you angry and upset that your mother did that to you?

Light - Information and energy expression from any being and also in its purest and highest form- from Source/God. There are various forms, origins and expressions of light.

Light Council, The Council of Light - Is a group of ascended light beings who serve and oversee the ascension process.

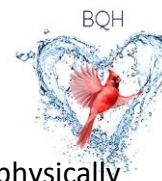

Light Language - Generally accepted term for the concept of communicating with words or symbols that do not originate from earth or humans. This language can be unique to groups or to individuals.

Practitioner/Client - Basic terms used in BQH to describe the roles of the facilitator and the role of the person whom is interested in healing or the BQH experience. (Generally, BQH'ers do not refer to clients as "patients").

Pre-Induction Speech - An introduction to hypnosis to prepare the client for the induction. It should include an explanation of hypnosis and an idea of what he/she can expect to experience in the state. It addresses any fears and misconceptions the client may have.

Programing - A word often used in tandem with belief systems or control, these are agendas created for specific outcomes. As an example, most western cultures program us to believe we must see and have a doctor or someone outside of ourselves do the 'healing'.

Quantum - Pertains to the quantum field (sub-subatomic) where consciousness and matter meet; is used to mean a jump, a leap to a higher level. Also, multidimensional connection, energy exchange and connections that are not affected by time, space or distance.

Quantum Healing- A broad definition to include types of healing not specifically physically focused and which accept healing is in fact possible and effective across time, space and distance.

Service vs Servitude - Service to others can be thought of as a concept of balanced energy exchange. Servitude can be thought of as service to others as a one-way energy projection with no balance or energy in return.

Somnambulism -The deepest state of hypnosis in most traditions, where the client has little to zero memory of the experience. Other definitions include acute perception of being in another place/time/form and greater disconnection from the conscious mind.

Soul - the spiritual or immaterial part of a human being or animal, regarded as immortal, emotional or intellectual energy or intensity.

Soul Family - collection of the above.

Spirit - energy of a being without physical expression or focus. A grandmother who is on the other side of the veil is considered to be a spirit.

Subconscious - The 88% of our mind that is mostly below the level of our awareness. The part of our mind responsible for reflexive action, ideo-motor responses and which contains the positive and negative associations we've made throughout our life.

Toning - Song like sounds or various notes sung by sound or energy healers. Often used in an intuitive way.

Void - Usually the space of, or prior to that, of creation. Often thought of as dark and without form or light, but it can also be thought of as the place of ultimate creation potential.
